## 911 IN PLANE SITE

<<A new 9-11 video [911 IN PLANE SITE] was screened [2 weeks ago] in Sacramento, California, leaving the audience stunned.... By slowing down the actual news feeds that day from networks like CNN, FOX, the BBC and others, what you see is quite different from what most people saw in "real time" that day. Live footage from the Pentagon and what was missed by most because of the smoke and confusion was captured up close by the media. >> for the complete story go to <http://tinyurl.com/3qmvz>.

This is a first time film that presents no theories just the video evidence. Check it out and we will speak about the documentary afterwards.

Wednesday, Sept 15, 7pm at SLO Library
